Skills

Proficient: JavaScript, React.js, Redux, HTML, CSS, Jira, Confluence, Material UI, Figma, Adobe Photoshop, Python, Bootstrap.
Familiar: jQuery, Express.js, Axios, WordPress.
Version control: Git, Bitbucket.
Database management tools: MySQL, MongoDB, Firebase.

Education

Polytechnic University of Timisoara
2022 - Present
Master's Degree
Information Technology

Tibiscus University Of Timisoara
2019 - 2022
Bachelor's Degree
Computer Science and Applied Informatics
Grade: 9,60

Technological High School
2014 - 2018
Mathematics and Computer Science

Work Experience

Endava (12/2021 - present)
Frontend Developer
Timisoara, Romania
I thoroughly learned React, Redux, Typescript, and delved into GraphQL. RTL (React Testing Library) was used to prioritize code reliability and ensure smooth interactions.

React and MaterialUI were used to create a dynamic web application that turned Figma's designs into usable user interfaces. Used Atlassian's tools—Jira for task management, Confluence for documentation, and Bitbucket for version control—to collaborate successfully within an Agile framework. React Context was used to handle state effectively, improving the functionality of the project.

Freelancer (02/2021 - 12/2021)
I've created web pages for some small businesses in my town: restaurant menu portfolio, pastry shop portfolio.

Continental (01/2020 - 05/2020)
Algorithm Test Engineer
Timisoara, Romania

Support developers in the implementation and testing phase, including writing code and tests, check simulation environments.

Language Skills

English: *Listening* - B2, *Reading* - B2, *Speaking* - B2, *Writing* - B2.

Organisational Skills

- Adept at collaborating within team-driven settings, contributing to efficient planning and execution
- Skillfully manage time and task prioritization, ensuring seamless project progression
- Possess an ability for quick comprehension and learning together with an organized, detail-oriented approach.

Hobbies and Interests

Hobbies: mathematics, technology gadgets, art, traveling, reading.

Interests: further improvement of my knowledge in React and backend.
